Profile

I am a passionate and highly experienced creative graphic designer with a broad adaptable skill set. My devoted drive for design and photography, encourages me to pursue my goals.

Over 5 years of commercial experience, has provided me with the skills and knowledge to manage any design project or advertising campaign from; conceptual stage through to completion, across a variety of on and off-line media.

I am a dedicated advocate of clean, minimalist design, with a strong sense of colour and have a sharp attention to detail. I can easily adapt my management and communication skills. I am always seeking the current trends in design, web and photography that can increase my skills and knowledge for design. I can easily say I am diligent in design research. Photography is a valued activity that has always been a hobby; however, I am now bringing this into my professional work, wherever possible.
